The republican patty wants nothing to do with us. When the 6th comes it will not only be a message to the communists, but also the RINOs who have stabbed Trump, and therefore all of us, in the back.

The Republican Party has served its purpose - to trick generations of conservatives that their voices were being heard. This newest generation isn't buying it.

The neocons are the original communist sympathizers. We talk about how the Democrat party has been infiltrated by marxists, but the Republican Party was already well on their way back in the 80s. Reagan was every bit the anomaly Trump was, that's why they had to shoot him. The republican neocons just played to their base while fucking us on every turn while the democrat marxists played to their ever more openly communist base by being louder and prouder commies.

It's certainly curious that so many of the original neocon bigwigs were Trotskyists in their college years - Kristol. Kirkpatrick. Schwartz, and others.

Trotskyism, of course, being the most overtly aggressive sect of Communism, the one that preached world revolution at all costs and which was founded by the guy who wanted the Soviet Union to immediately go to war with the rest of the planet in the 1920s. Can't imagine what that must have in common with the neocon brigade who want America to engage in eternal war.

This is Captain Crunch, Crunch for Crunch-Time, back with the PRIMARY MARCHING ORDERS to WIN FOR TRUMP Jan 6 (until you hear otherwise from an authority you trust). *** WE ARE GOING TO PEACEFULLY PROTEST The DEMOCRATs From Those 6 states FROM ENTERING THE BUILDING - PA,WI,MI,GA,AZ,NV ***

1. Peacefully protest democrats from PA,WI,MI,GA,AZ,NV from entering the building (just ten thousand bad ass patriots ready to kick a communist's ass, standing there blocking them)
 2. Cops and military stand down
 3. Allow Republicans from PA,WI,MI,GA,AZ,NV to enter (except Mitt Romney and McConnell. Fuck those traitors).
 4. No Democrat legislators from PA,WI,MI,GA,AZ,NV inside to vote = Trump wins.
- beat that plan.
 - Plan B: patriots from each state occupy the building, seat their own delegations, and cast the votes right then and there. I mean if 1 out of 1000 trump people show, that is 100,000 people. They can walk right in the building and citizens arrest any damn person they please.

Well, there's this:

[**Schumer, Schiff, Nadler, Feinstein, Rosenstein, Weissmann, Schneiderman, Singer, Soros, Wittes, Sondland, Vindman, Ciaramella, Maher, Midler, Streisand, Yovanovitch, Krugman, Karlan, Zucker, Zuckerberg...**]

A conga line of names, who along with their ilk, have been responsible imo for about 80% of the shit Trump has endured these past 4 years.

Recognize anything about them?

No one is going to be tried for treason. Would love to say they would, but based on past experience, he refuses to take assertive measures to pay dividends later on. The president prefers surgical touches, he's actually the polar opposite of Andrew Jackson. Jackson had a long list of public bodies behind him and his enemies both respected and feared him.

its because even the commies dont believe china is true communism.

part of the occult secret tactic of communism is that. the dumb idiots you get to support you by promising a better life need to BELIEVE it will be a better life. thus all other examples of communism are false, corrupted "state capitalist" systems and if it happened here it would be "true communism"

until of course it does. in which case it will be exactly like it always was because they are in fact, not different.

if only those retards realized there would never BE a popular vote and the people they put in will simply vote for them -- against their interests that they were promised.

I know it sounds bad and like a cop out, but I've decided I'm done voting. I do believe this election was rigged, and there's simply no point in voting in a rigged election. I also believe that aside from a handful of republicans, they are just the same as the dems. It's one big uniparty that only cares about their own interests, and doesn't give a fuck about we the people.

If a new party is formed, a MAGA party, perhaps, then I will vote for those candidates. That's assuming the fraud is fixed because otherwise it won't matter. If we truly don't have free elections anymore, than America is lost, and I don't give a fuck if the dems have full control because it's already too late.

Yup, I'm in PA and I just unregistered to vote last week. Sadly I voted in every election, including primaries and midterms, for the past 20 years. The Republicans lost a dedicated voter by their lack of supporting Trump and his/our values.

I figure the legislature here is republican controlled and they did nothing to stop the fraud. Why should I keep voting for them? The most egregious of which was the lack of signature verification. Without that, the folks in Philly can just sign "mickey mouse" to thousands of ballots and they can't be rejected. I see no reason to vote now as my vote was drowned out by thousands of fraudulent votes.

Btw, it's a little bit of a pain in the ass to unregister here. I couldn't do it online. I had to mail in a physical form.

I feel for ya. I can't imagine being a voter in PA where all that fuckery went on. I'm in OH, and it *seems* like our election was more or less on the up and up. However, even without major fraud, we still have the problem that republicans are either RINOs, or spineless pussies. We're seeing this all over. Just like you said, your state has a republican legislature, and they're still cucking out. It's like our own team is against us. I refuse to vote for that any more; I don't care if it's the lesser of two evils.

At least the dems are in your face and upfront about being radicals and assholes. Many of the repubs are just as bad, but they pretend to have our backs, only to stab us as soon as they can. They're cowards, and I won't support that any more.

the whole point of the post UN world system was to gradually lie to populations while placating the elite rulership dynasty classes of multiple societies in order to prevent wars caused by the free economic and social interests of the people within those nations.

it was to offer people with power an "out" as internationalists if their fuck ups ever made their own homes uninhabitable.

truth be told that is the only way to maintain peace. so I know why they did it after my research into the dark hidden places of the mind. ive seen the same logical dilemma that turned sinful men into truly evil men by them trying to do the best thing -- or so they thought.

the truth is, without such tyrannical encumbrance, there would be no dynasty class -- but still a hierarchy of actual merit. they play on technocracy as another type of occult thing -- they always use words related to good or merit applied to themselves only.

thats the thing. their technocracy would involve them as the top class and most skilled and they would never simply offer a fair test or challenge to defeat them and take their place -- thus it is not a meritocracy or a technocracy. its only technocratic in that everything is technically planned and controlled and monitored.

but the whole reason for doing that IS to short-circuit the natural hierarchy and replace it with one totally controlled by themselves. where hierarchy has been turned back into a mystery school type cult that you must join and gain approval before being offered to join the guilds who are strictly managed and controlled...

this is the real reason why I say "maybe hot war was better, maybe peace was wrong"

its not that peace is bad, but peace for the sake of peace at any cost is in fact wrong. that means you're gonna stand there and take it as you get raped and beaten in the street just for the sake of "peace"

i dont know if thats why the older gen hates the UN. I think for them its just about tyranny and world governance. but thats my interpretation of the facts.

and I think it makes sense. such a state would eventually lead the compromises between those with power alone turn the world into a planned communistic state.

eventually youd whittle down people sitting at the table until just a few of you controlled the most important aspects of society. at which point you basically already are the government in most cases. hence, big tech and the media.

once you're practically the government, you're only a stones throw away from becoming the legitimate government. after all, from your point of view "at this point I basically already am, why arent I just the government? might as well be!"

like why you think biden and all them are freaking out about "restoring our alliances" which have been fucking fine?

its because of the practical peace idea i mentioned.

they're freaking out because basically now they owe their heroin dealer for a years worth dope on the front (loaned out without money) and are like "Shit we need to get these ppl money stat!"

in fact its exactly why they waited to try and cheat trump out, then went under his nose while he was still president to rush out that bullshit in the aid bill. dont fool yourself. I might be absolutely insane, but i dont think im wrong even if im overexaggerating to make a point.

honestly this is even worse than robbing a heroin dealer. this is like robbing the cartel like going to MS-13 and taking their shit. People paid billions of dollars for hillary to be president. people didnt get what they paid for. people are mad.

My thinking was that I don't plan to be voting again so why risk jury duty. I honestly don't even know for sure if jury duty is chosen from the voter rolls or if that's just an old wives tale, but that's why instead of just not voting I decided to unregister.

If, and it's a big "if", I calm down in a couple years and decide I want to vote, then I'm sure there must be a process to re-register at that time.

There certainly is a point in voting in a rigged election. The more people vote, the more the would-be election thieves have to expose themselves. It's not obvious to me that the left's fraud capabilities are boundless and unassailable. I believe the odds are stacked against us, but the game is still winnable if we play our cards right.

If I'm wrong, voting certainly didn't hurt and took little to no effort in the grand scheme of things. If I'm right, there's a chance to right this ship, and not voting is a total capitulation. In terms of game theory, it's obvious what needs to be done.

Think beyond the 2 party system. Think about how MAGA pedes can run for local office, state office and federal office. We don't need to choose RINO vs. Commie. We have the ability to create a MAGA party with our own MAGA candidates. Even lifelong Republican voters are sick of the GOP. Of course, voting ONLY matters if Trump crushes the voter fraud and our future elections secured.

It's pretty shitty, I know. Votes won't matter at all between the new standard of mail-in fraud + dominion fraud anyway, but it's awful-feeling to know that there's basically zero good ways to cast your meaningless vote in the future anyway, so you can't even feel like you've done something :/

It's a brilliant strategy really... compromise the leadership of the party (which took about zero effort tbh) and fracture it so badly that you split off like 30-50% of their vote to some independent throwaway party. People can say what they will about dems eating each other, and all the party in-fighting, but they sure as fuck step into line like good cucks when its time to cast votes and "count" all the "ballots".

Download a map of DC ASAP: <https://thedonald.win/p/11RNyBCHOH/download-a-dc-map-and-save-in-of/c/>

Navigating DC without a map (DL it anyways, but paper gets wet and phones die.)

<https://thedonald.win/p/11RO2hcJfs/tips-for-navigating-washington-d/>

Bring multiple sets of gear to share:

No time or money for trail packs so how can we make basic school bags work (and more supportive)?

any survival/milsim pedes got a list of stuff to put in them they can share? Thinking 14 days in 0 degrees. basic cheap and achievable things on short notice. Something like:

Winter clothes

Winter is a great reason to wear a hat, mask and scarf. Keep your face and ears warm. Fucks with the face recognition software too.

Tent

Sleeping Bag

Lightweight Pad

sanitation gear, hand sanitizer, etc.

heating pads

flashlight

Trail mix and jerky

Water

matches/lighter

personal protective equipment, mace, what have you

high energy.

Pack sets for as many others as you can afford to transport. Unity wins. Worst case scenario is that you double your supplies.

You forgot to mention guns. Bring guns and be ready and prepared to use them. Do not allow police or anyone else to violate your constitutional rights (INHERENT rights).

Without guns they'll just deploy tear gas and crowd control measures including firing indiscriminately with rubber bullets and other dangerous munitions and they won't stop until patriots are dead, injured, and fully dispersed and beaten.

Make no mistake, the police in DC are enemies. They have already beaten and arrested Trump supporters for trying to defend their families from antifa. They have already actively defended antifa. The DC mayor is an active enemy combatant issuing orders for police to disperse and harm Trump supporters any way possible including standing back and allowing antifa attacks but then stepping in and beating Trump supporters if they start winning against antifa. If you go unarmed the police WILL beat the shit out of you. The police WILL allow attacks against you. The police are traitors in DC.

Neither side wants a supermajority. If they did, they wouldn't be able to claim gridlock and accomplish none of what their base wants. They never plan on fulfilling their false promises. It's actually preferable because they can put in all that pork and claim it's necessary to get the other side to sign.

If you look at the 2022 map, there is a high possibility that Democrats take Wisconsin from idiot Ron Johnson who blocked 1200 checks (bad move), Pennsylvania since Republican is retiring, they will just take Pennsylvania that's 52 with Georgia.. Iowa and Florida are also up for taking because if there's no Trump people in Florida don't give a fuck about Republicans.. Mitt Romney, Lisa Bitcowski, Susan Collins etc are all democrats.

Haha, I was thinking of that when I wrote the comment!! Oddly enough, my wife recently picked up my copy of Dante's Inferno off the bookshelf and per my advice has been reading it. Its kind of funny - I expected a split like this, between Trump and the "traditional R's" back in 2016-17. It was very obvious they didn't care for him - just go watch the debates with Jeb where Trump is being booed by the (paid) audience - **but a great many were willing to make a gift of it and use Trump as their benefactor**, until the time came where they could cut and run. Any talk about the "why" is a pathetic excuse - they are abandoning him en masse, because in all their cowardice they are afraid of the ramifications toward a Biden admin if they don't.

For all of us who hate Paul Ryan - *and I certainly count myself among those who do* - at the very least you can say for him that he did not hide his disdain for political gains and unearned popularity. Yet Trump, being either earnest or politically naive, **actually was willing to entertain and work with Mitch, Christie, and their like**. And look at them now. The moral turpitude of these people makes a prostitute hold their nose. **They will be left in the cold for an eternity** for their crimes. The people know it, and more than ever the traits of decency and humility are paramount to the American voter. No wonder why, when such a dearth of it is center stage in our politics.

For those reasons, Perdue and Loffhler will undoubtedly lose on the 5th and then spell DOOM for the old GOP. **Watch as the rats jump from the ship, TRYING TO COME BACK TO TRUMP, AFTER THAT HAPPENS. SICKENING.**

I think this is less to do with the GOP trying to screw the American public, and more the fact they don't like how Trump "rocked the boat" during his term and were either complicit in or wanted the election stolen to get rid of him and their defiance to the calls to do something are basically the Brutus to his Caesar

Ding ding ding! You win the golden egg today.

Repubs are overly eager to get back to "politics as usual". They're 100% fine with being the "bad" party that everyone hates and always takes the losses as long as they get their under-the-table payoffs and other similar benefits. Trump shows up and demonstrates that "yea, we can actually get things done" to which both parties recoil in horror at because it reveals just how useless they really are, which then threatens the gravy train.

Trump's talked for almost 6 years about "draining the swamp" but I don't really think people have understood what that meant until now. He wasn't talking about some shadowy Deep State or a sold-out Democrat party. He's talking about the entire Washington D.C. establishment political system which has grown and festered for decades.

Death wish? GOP is dead no matter what happens, even if they hold the Senate. They sold out the greatest president this country ever had in decades. A president that actually cared about THIS country instead of literally everyone else (ie the America Last globalist coalition).

McConnell is YUGE Uniparty scum.

2010 -- when strict constitutionalist Sharron Angle won the NV GOP US Senate primary, she went to DC to meet GOP leaders.

In McConnell's office Mitch told her, "I can WORK with Harry Reid!"

The Turtle is the problem.

I like the sound of the MAGA Party and I think 90 million plus(75 million we got and the 15 million plus they switched) patriots feel the same. Conservatism is in the blood , republican is just a word.

McConnell is complying ... I mean wtf!???

This is beyond 3D chess

They forced the dems hand and made them vote the bill ... and now McConnell playing the villainous role ... has betrayed the corrupt consensus and its tying the 2k with repealing 230 AND election reform !!!!

This is beyond genius

I'm exhausted

McConnell signaled he would package the increased stimulus checks and tie it to a bill focused on repealing Section 230 and election reforms.

“During this process, the president highlighted three additional issues of national significance he would like to see Congress tackle together,” McConnell said signaling a new package.

Biggest fucking cop out ever. Why does it have to be one bill!? I guess smaller more focused bills would eat up their precious recess time and make it harder to hide their money laundering pork.

honest question. do ya'll really believe at this point that trump and his team of like... 10 loyalists can defeat the entirety of the corrupt US Govt which includes all 3 branches... ? If trump somehow stays in for another 4 years do ya'll really believe that he will be able to do anything with all the traitors and backstabbers having been exposed?

i hear ya. hope so too. but even if he wins.. i just dont know what he can do unless something huge happens in our favor which im just having a hard time seeing anymore. i was 100% certain shit was gonna pop off and go our way but as the weeks go by.. and jan 6/20th gets closer with nothing to really show for all our white-pilling.. im pretty disillusioned at this point. honestly dont think many people will show on jan 6th nor will they be allowed to show in massive numbers. maybe im just having a black pill day.. sigh

I would go with this. Doesn't matter how much confidence you have, sooner or later the demoralizing campaign hits you. Happened to me when the Fake News said Trump signed the Covid bill. Thought he gave up, but as always it was half the story.

i was 100% certain shit was gonna pop off and go our way but as the weeks go by.

Trump's goal right now is to shatter all trust in our system. If you want to Make America Great Again, you need to burn the rotten system we have to the ground. Only way to do that is to get popular support behind it.

jan 6/20th gets closer with nothing to really show for all our white-pilling.

We had some victories. We know who we can trust now and who we can't. We saw we had true friends in high places when multiple states sent competing electors. We even have the fraud live on film.

Big problem we have is that there are two fronts to this fight. The first is the fight for public opinion. Both sides are trying to get the populace to buy their version of events. This is going to be the most visible side of the fight for us. It is also going to be the fight we appear to be losing because the major institutions that influence public opinion are in enemy hands.

That is but a side theater to the main front: politics/cloak and dagger. You and I as civilians will be lucky to catch even a glimpse of the fighting here. You have spies running SigINT to catch foreign communications (Chinese involvement in the elections), the confirmed commando raid in Germany to steal a server, to even trading favors/blackmail. We can't say for sure how this fight is going by its very nature, but we can look at other things as like a weather vane. Biggest thing I see is that people are signing up to work for Trump and Trump is enacting EOs for things such as building standards.

Why would anyone work for Trump if they are going to be fired in less than a month? Why would Trump work on such minutia if it will be over turned in less than a month? Answer: No one there thinks it is going to be over in a month's time.

The stupid assholes think that once Biden gets in it will somehow be a "return to normal" where they can be the loyal or controlled opposition. And that Trump voters will be upset but eventually fall into line. Problem is, "normal" is gone. Normal has left the building. You can bet once KumAlot becomes president we will see Stalin-esque purges.

The Republican party either fights now, or gets marched off a cliff later. More massive voter fraud plus Trump voters jumping ship. I know I sure as hell won't support a candidate who didn't stand for Trump now. And if Trump is out, you can bet he will start a MAGA party and tell the GOP to go [\[email protected\]](#) % themselves.

Dems take a hit too, if they fail on the \$2k. Word is out on the street everyone gets more, even the libs will chimp out if they only get \$600.

The longest shot is 230. I just don't see them going there, Big Tech has them all in their pocket.
